Immediate Joiner

Career Objective

Result-driven iOS Developer **with 3+ years of hands-on professional experience in iOS application development** and **5+ years of overall experience in mobile application development and site reliability engineering.** Seeking an iOS Developer role where I can leverage strong **UIKit-based development expertise**, along with **hands-on SwiftUI and Combine knowledge gained through self-developed demo projects,** to build scalable, secure, and high-quality iOS applications.

Professional Summary

- **5+ years of overall experience** in iOS, Android development, and Site Reliability Engineering, with **3+ years of hands-on professional iOS development experience.**
- iOS Developer skilled in **Swift, UIKit, RxSwift, MVVM + Clean Architecture**, and **programmatic UI development.**
- Hands-on experience with **SwiftUI and Combine** through self-developed demo projects using reactive programming concepts
- Strong experience in integrating **REST APIs, third-party SDKs, Deep Linking, Push Notifications** and **Localization.**
- Experienced in **secure iOS app development** including **encrypted APIs, certificate pinning, secure storage**, and **biometric authentication.**
- Proficient in **unit testing** using **XCTest** and **OHHTTPStubs**, with solid understanding of **SOLID principles** and **Dependency Injection.**
- Experience with A**gile methodologies, CI/CD pipelines, and monitoring tools** such as **Splunk, New Relic,** and **AppDynamics.**

Experience Summary

- Working at **Infosys Limited**, Bengaluru as **Senior System Engineer** (Feb 2023 − Present)

- Worked at **Infosys Limited,** Bengaluru as **System Engineer** (Dec 2021 – Jan 2023)
- Worked at **Mobil80 Solutions and Services Pvt. Ltd.**, Bengaluru as **Software Engineer** (Jun 2020 – Nov 2021)
- Worked at **Mobil80 Solutions and Services Pvt. Ltd**. as **Software Trainee** (Feb 2020 – May 2020)

Professional Experience

1. Project: Mobile Security iOS Application

Organization: Infosys Limited
Duration: June 2023 – Present
Role: iOS Developer

Roles & Responsibilities:

- Developed and enhanced iOS features using Swift and UIKit, following MVVM + Clean Architecture and SOLID principles.
- Implemented OTP approval via QR code scanning with encrypted REST API integration and certificate pinning for secure backend communication.
- Integrated biometric authentication (Face ID / Touch ID) and secure local storage for sensitive user data.
- Wrote unit test cases using XCTest and OHHTTPStubs for OTP workflows and core business logic.
- Integrated AppDynamics for performance monitoring, crash analysis, and production issue tracking
- Fixed production bugs and performance issues and collaborated with QA and cross-functional teams to ensure stable, high-quality releases.

---

2. Project: E-commerce iOS Application

Organization: Infosys Limited
Duration: January 2022 – May 2023
Role: Site Reliability Engineer

Roles & Responsibilities:

- Monitored application health using Splunk and New Relic.
- Analyzed crashes, performance bottlenecks, and production incidents.
- Coordinated with development teams for root cause analysis and fixes.
- Supported release deployments and post-release issue resolution.

3. Project: Prezence – Easy Attendance App

Organization: Mobil80 Solutions and Services Pvt. Ltd.
Duration: May 2020 – November 2021
Role: Android Developer

Roles & Responsibilities:

- Developed the application from scratch using MVC architecture.
- Integrated AWS GraphQL APIs and Firebase Cloud Messaging (FCM).
- Implemented QR scanning, Google Maps, and attendance tracking features.
- Integrated payment gateways including Razorpay and Stripe.
- Published and maintained the app on the Google Play Store.

Personal / Demo Projects

SwiftUI + Combine Demo Application

Role: iOS Developer (Self Project)

- Developed a demo iOS application using SwiftUI and Combine to understand reactive UI patterns.
- Implemented API integration, state management, and error handling using Combine publishers.
- Followed MVVM architecture and clean code practices.
- Source code available on GitHub.

Technical Skills

iOS Technologies:
Swift, UIKit, AutoLayout, Storyboards, Programmatic UI, URLSession, async/await, XCTest, Swift Package Manager, CocoaPods
SwiftUI, Combine *(Hands-on via demo projects)*

Android Technologies:
Kotlin, Android SDK, Room, Retrofit, LiveData, Coroutines, Firebase

Web & Cross-Platform:
HTML5, CSS3, JavaScript, React JS, Flutter

Architecture:
MVC, MVVM

Monitoring & APM Tools:
Splunk, New Relic, AppDynamics

Tools & IDEs:
Xcode, Android Studio, GitHub, GitLab, Jira, Confluence, ServiceNow, Postman

CI/CD:
Azure DevOps

Payment Gateways:
Razorpay, Stripe

Educational Qualification

- **Bachelor of Technology (CSE)**
  Biju Patnaik University of Technology, Rourkela, Odisha — 2019
  CGPA: 8.45
- **Diploma in Computer Science Engineering**
  Al Kabir Polytechnic, Jamshedpur, Jharkhand — 2015
  Percentage: 76%

Certifications

- Infosys Certified Swift iOS Developer
- Infosys Certified Kotlin Android Developer
- Infosys Certified Flutter Developer
- Infosys Certified React Developer
- Infosys Global Agile Developer Certification
