PROFESSIONAL SUMMARY

Dedicated Mobile Application Developer with 6 years of experience in mobile engineering and 3+ years of production-level iOS development. Currently contributing to the Rakuten Link application through JOY IT Solutions, working within a Modular SDK-based architecture. Expert in building scalable, secure, and high-performance mobile features by maintaining a strict separation of concerns between UI layers and core business logic. Proven track record in optimizing network performance, implementing complex API integrations, and ensuring cross-platform stability across iOS (Swift/UIKit) and Android (Kotlin).

CORE SKILLS

iOS: Swift, UIKit, Auto Layout, Programmatic UI, URLSession, async/await, XCTest

Modern iOS: SwiftUI, Combine (hands-on project experience)

Architecture: Modular SDK Architecture, Facade Pattern, MVVM, Clean Architecture, SOLID, Dependency Injection

Real-Time Communication: WebRTC, VoIP/Calling, Audio/Video Streaming, Signaling

Messaging/Protocols: RCS, IMDN, REST APIs, WebSockets

APIs & Security: REST APIs, Certificate Pinning, Encrypted APIs, Secure Storage, Biometric Authentication

Monitoring & Stability: Sentry, AppDynamics, New Relic, Splunk, Crash Analysis

CI/CD & Tools: Xcode, Git, Azure DevOps, Jira, Confluence, Postman

Other Mobile: Android (Kotlin), Firebase, Payment Gateways (Razorpay, Stripe)

PROFESSIONAL EXPERIENCE

JOY IT Solutions (Client: Rakuten Symphony) – Bengaluru

Mobile Application Developer | May 2026 – Present

- Contributing to the **Rakuten Link** communication ecosystem, utilizing a **Modular SDK-based architecture** and **Facade pattern** to maintain a clean separation between UI and core business logic.
 - Implemented the **Bulk IMDN (Instant Message Disposition Notification) Enquiry** feature, orchestrating batch RCS status updates via MAVSDK handlers to ensure thread safety and efficient network performance.
 - Enhanced cross-platform reliability by performing critical bug fixes and performance optimizations in the **Android (Kotlin)** codebase, specifically focusing on the **Call Module** and **Address Book** synchronization to ensure consistent app stability.
-

Infosys Limited – Bengaluru

Senior System Engineer (iOS Developer)
Feb 2023 – Dec 2025

Client-Facing Enterprise iOS Application (App Store Published)

- Developed and maintained production iOS features using **Swift and UIKit**, following **MVVM + Clean Architecture** for a client-facing security-focused application.
 - Implemented **OTP approval workflows using QR code scanning**, integrating encrypted REST APIs with **certificate pinning** to ensure secure backend communication.
 - Integrated **Face ID / Touch ID** authentication and secure local storage for sensitive user data.
 - Wrote **unit tests using XCTest and OHHTTPStubs**, improving reliability of authentication and core business logic.
 - Integrated **AppDynamics** for performance monitoring, crash tracking, and proactive production issue analysis.
 - Collaborated closely with QA, backend, and product teams to deliver stable releases and resolve production defects.
-

Infosys Limited – Bengaluru

System Engineer (Site Reliability Engineer)

Dec 2021 – Jan 2023

- Monitored mobile application health using **Splunk and New Relic**, analyzing crashes and performance bottlenecks.
 - Supported production releases and post-release issue resolution for iOS and Android applications.
 - Performed root cause analysis and worked with development teams to improve application stability and performance.
-

Mobil80 Solutions and Services Pvt. Ltd. – Bengaluru

Software Engineer (Android Developer)

Jun 2020 – Nov 2021

- Developed an Android application from scratch using **Kotlin and MVC architecture**.
 - Integrated **AWS GraphQL APIs**, Firebase Cloud Messaging (FCM), QR code scanning, and Google Maps.
 - Implemented **attendance tracking** and payment flows using **Razorpay and Stripe**.
 - Published and maintained the application on the **Google Play Store**.
-

PERSONAL PROJECTS

SwiftUI + Combine Demo Application

Role: iOS Developer

- Developed a modern iOS application using **SwiftUI and Combine** to demonstrate reactive UI patterns and state management.
- Implemented REST API integration, error handling, and MVVM architecture.
- Focused on clean code practices and reusable components.

EDUCATION

Bachelor of Technology – Computer Science Engineering

Biju Patnaik University of Technology, Odisha | 2019

CGPA: 8.45

Diploma – Computer Science Engineering

Al Kabir Polytechnic, Jharkhand | 2015

Percentage: 76%

CERTIFICATIONS

- Infosys Certified Swift iOS Developer
 - Infosys Certified Kotlin Android Developer
 - Infosys Certified Flutter Developer
 - Infosys Certified React Developer
 - Infosys Global Agile Developer Certification
-
